ALHAMBRA, CALIFORNIA 91802-1460

GAIL FARBER, Director

June 01, 2010

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

ADOPTED

BOARD OF SUPERVISORS
COUNTY OF LOS ANGELES

#43 JUNE 1, 2010

SACHI A. HAMAI

EXECUTIVE OFFICER

THE HIGHWAY SAFETY, TRAFFIC REDUCTION, AIR QUALITY, AND PORT SECURITY BOND ACT OF 2006 (PROPOSITION 1B) – LOCAL STREETS AND ROAD IMPROVEMENT, CONGESTION RELIEF, AND TRAFFIC SAFETY ACCOUNT OF 2006

APPROVE ROAD CONSTRUCTION PROJECT LIST FOR FOURTH APPROPRIATION OF STATE
PROPOSITION 1B FUNDS TO THE COUNTY FOR LOCAL STREETS AND ROADS
(ALL SUPERVISORIAL DISTRICTS)
(3 VOTES)

SUBJECT

This action is to approve a project list prepared by the Department of Public Works for the fourth appropriation of State Proposition 1B transportation bond funds in the amount of \$85 million to the County of Los Angeles.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve the list of road improvement projects to be financed with the fourth appropriation of State Proposition 1B transportation bond funds in the amount of \$85 million appropriated by the State of California to the County of Los Angeles under the Local Streets and Road Improvement, Congestion Relief, and Traffic Safety Account of 2006.
2. Authorize the Director of Public Works or her designee to approve future revisions of up to 10 percent of the dollar amount for each project on the Board's approved list without change in project scope/limits.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the recommended action is to obtain the Board's approval of the enclosed list prepared by the Department of Public Works (Public Works) for road improvement projects to be financed with the fourth appropriation of State Local Streets and Road Improvement, Congestion Relief, and Traffic Safety Account of 2006 (LSR) funds allocated to the County of Los Angeles (County). The recommended action will also delegate authority to the Director of Public Works or her designee to approve revisions to project dollar allocations up to a maximum 10 percent variation in the budgeted amounts of each project without change in project scope/limits. This delegation will enable Public Works to proceed with the recommended road improvement projects and ensure that the funds are expended by the June 30, 2014, deadline.

Implementation of Strategic Plan Goals

The Countywide Strategic Plan directs the provisions of Operational Effectiveness (Goal 1) and Community and Municipal Services (Goal 3). By addressing local traffic congestion and improving the condition of the roadways in the County, residents of unincorporated County areas and nearby cities who travel on County roads will benefit and their quality of life will be improved.

FISCAL IMPACT/FINANCING

There will be no impact to the County General Fund.

The fourth allocation of LSR funds appropriated by the State, in the amount of \$85 million, is anticipated to be received by Public Works in Fiscal Year 2010-11 and deposited in the Road Fund. Project expenditures will occur in Fiscal Year 2010-11 and subsequent three fiscal years. Upon receipt of the allocation, Public Works will revise the Fiscal Year 2010-11 Road Fund Budget to ensure sufficient funding is available. Funds to finance future years will be requested through the annual budget process.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The Highway Safety, Traffic Reduction, Air Quality, And Port Security Bond Act of 2006 (Proposition 1B), which was approved by the voters in November 2006, authorized the sale of \$19.925 billion in State general obligation bonds for various transportation programs throughout the State, including congestion relief projects, public transit, and goods movement. Proposition 1B provides for the State Legislature to appropriate funding for these programs over a multiyear period.

The various transportation programs will fund projects through a combination of direct allocations to local agencies and competitive grants. One of these programs is the direct allocation of funds to cities and counties under the LSR; \$1 billion is to be allocated directly to cities and \$1 billion is to be allocated directly to counties. The funds must be used for improvements to address local traffic congestion, street and highway pavement maintenance, drainage facilities, traffic control devices, facilities that expand ridership on transit systems, and safety projects to reduce fatalities. Of the \$1 billion allocated to counties, the County will receive approximately \$190.5 million after consideration of the State's administrative fee.

The Fiscal Year 2007-08 State Budget included an initial appropriation of \$950 million of the \$2

billion in Proposition 1B LSR funds allocated to cities and counties. Of the \$950 million appropriated in Fiscal Year 2007-08 to cities and counties, counties received \$400 million. The County received \$76.9 million of the \$400 million apportioned to counties statewide.

On June 30, 2008, the Governor of California signed Assembly Bill 1252 to stimulate the economy and expedite \$300 million in funding for transportation and housing projects across the State. This included an appropriation of \$87 million of Proposition 1B LSR funds to counties. Of the \$87 million appropriated to the counties, the County was appropriated \$16.7 million.

The Fiscal Year 2008-09 State Budget included an appropriation of \$250 million of Proposition 1B LSR funds to cities and counties; counties received \$63 million of the \$250 million. The County was appropriated \$11.9 million of the \$63 million apportioned to counties statewide.

The Fiscal Year 2009-10 State Budget includes a final Proposition 1B LSR appropriation of \$441 million to counties. Of this amount, the County will receive \$85 million. The funds will be disbursed to the County when the transportation bonds are sold, which is anticipated to occur in Fiscal Year 2010-11.

The funds have been divided between the five Supervisorial Districts (Districts) using a similar distribution formula to that used to allocate the funds by the State to each county. This formula provides that 75 percent of the funds are allocated based on the number of registered motor vehicles in each District (approximately an equal number in each District), with the remaining 25 percent allocated based on roadway centerline mileage in each District. Enclosure 1 is a spreadsheet showing the allocation formula used for the distribution of the LSR funds to each District.

State Proposition 1B guidelines require that the Board approve the specific projects to be financed with LSR funds. The Board has previously approved project lists for the first three appropriations of LSR funds. Enclosure 2 is a list of projects representing the \$85 million expenditure of the fourth appropriation of LSR funds allocated to each District. Upon approval, Public Works will forward the list of projects to the State Department of Finance along with a request of disbursement of the County's apportionment of the funds.

It is also requested that the Board authorize the Director of Public Works or her designee to approve future revisions to the project list allowing for adjustments of up to 10 percent in the budgeted amounts for each project. The State allows such minor changes in the project budgets and the shifting of funds between the approved projects without governing body approval provided that there are no major changes in the project scope nor any deletion or addition of a project. The Board's approval of these future minor adjustments to the project budgets will render unnecessary additional Board actions to approve such adjustments.

ENVIRONMENTAL DOCUMENTATION

In accordance with Section 15378(b)(4) of the State of California Environmental Quality Act Guidelines (CEQA), the acceptance of Proposition 1B bond proceeds does not constitute a project and therefore is not subject to the requirements of CEQA. An environmental review and the appropriate environmental document for each project will be prepared and submitted for your Board's approval at the appropriate time.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Upon completion of the projects, motorists will be provided with safe, smooth, and aesthetically pleasing roadways.

CONCLUSION

Please return one adopted copy of this letter to Public Works, Programs Development Division, for further processing.

Respectfully submitted,

GAIL FARBER
Director
